Dear Sir:

Pursuant to the requirements of 37 C.F.R. § 1.56, Applicants now submit a list of documents known to Applicants or Applicants' attorneys. In view of the Federal Circuit Court of Appeals' decision in *McKesson Information Solutions, Inc. v. Bridge Medical Inc.*, 487 F.3d 897 (Fed. Cir. 2007), Applicants also provide a list of documents from the prosecution of foreign and U.S. patent applications.

Applicants have not included copies of cited U.S. patents or published U.S. patent applications. But, pursuant to 37 C.F.R. § 1.98(a)(2)(iv), and for the Examiner's review, Applicants have enclosed copies of the following: (1) cited foreign patents, (2) non-patent publications, and (3) documents from the prosecution of foreign and U.S. patent applications.

Regarding category (3), documents from the prosecution of foreign and U.S. patent applications, Applicants note that 37 C.F.R. § 1.98(b) does not mention, and thus does not

require, that Applicants must provide any particular set of identifying information. While 37 C.F.R. § 1.98(a)(1) requires Applicants to provide a list of such documents, it does not require Applicants to include in that list specific identifying information. 37 C.F.R. § 1.98(a)(2)(iv) further requires Applicants to provide a copy of such documents (see APPENDIX A). Thus, the rules do not require that Applicants provide any particular set of information about the documents in category (3) prior to the Examiner's consideration of all the cited information. Nevertheless, in order to be as helpful as possible, Applicants have provided (a) information regarding the source of the documents, and (b) a title or description of each document. The prosecution record of either a foreign patent application or a U.S. patent application is the source for each document. Accordingly, in the list required by 37 C.F.R. § 1.98(a)(1), Applicants have provided information about the source of each document. The information provided mirrors the requirements for cited foreign patent applications and U.S. patent applications as set forth by 37 C.F.R. § 1.98(b). For at least these reasons, Applicants respectfully request consideration of all documents submitted in the present Information Disclosure Statement.

Pursuant to M.P.E.P. § 2001.06(b) and 37 C.F.R. § 1.98(b)(3), Applicants now bring to the attention of the Examiner the following co-pending U.S. patent applications. The pending applications identified with an asterisk (*) are stored in the USPTO's Image File Wrapper (IFW) system. In accordance with the waiver to 37 CFR § 1.98(a)(2)(iii) dated September 21, 2004, Applicants have not included copies of the cited specifications, which include the claims and drawings thereof.
